Appendix 1 – CFD TRADING

TERMS • Scope

1.1. This Appendix is applicable only to those Clients trading in the Financial Instruments of CFDs.

2. Types of CFD Orders

2.1. The following CFD Orders may be placed with the Company, depending on the types of Client Account the Client has:

- **Previously Quoted.** The Client sends new Orders with reference to a previously received executable price.
- **Limit.** Orders executed according to Client specifications at the limit price or better until they are filled, canceled, or expired.
- **Market.** Orders are executed immediately at the best available price in the system.
- **Market Range.** Orders are executed immediately at the best available price in the system as long as the slippage is within the range specified.

- Stop. Orders are active but do not execute until the market price reaches the Order's trigger price. Orders are then executed as market or market range orders depending on whether or not the related field is specified.

- Stop Limit. Orders are active but do not execute until the market price reaches the Order's trigger price. Orders are then executed as limit orders at the order limit price or better.

3. Placing, Cancelling or Removing Orders and Execution of Client Orders

3.1. Orders can be placed, executed, changed or removed within the Trading Hours for each type of CFD appearing on the Company's Website as amended from the Company from time to time.

3.2. Pending Orders, not executed, shall remain effective through the next trading session (as applicable).

3.3. Market Orders not executed because there is not enough volume to fill them, will not remain effective and will be cancelled.

3.4. All open spot positions will be rolled over to the next business day at the close of business in the relevant Underlying Market, subject to the Company's rights to close the open spot position. Any open forward positions will be rolled over at the expiry of the relevant period into the next relevant period subject to the Company's rights to close the open forward position.

3.5. "overnight swaps are not represented in a fixed amount and may vary depending on market conditions, account types or weekdays"

3.6. According to the T&C, it is a solely client's decision when to open positions and when to liquidate open positions, including the expired trades. Failure to close a position in a timely manner before a contract expires, might lead to additional overnight swaps charges by the third party (Liquidity Provider)

3.7. Orders shall be valid in accordance with the type and time of the given Order, as specified by the Client. If the time of validity of the order is not specified, it shall be valid for an indefinite period. However, the Company may delete one or all pending orders if the Client Account Equity reaches zero.

3.8. Orders cannot be changed or removed after being placed in the market. Stop Loss and Take Profit Orders may be changed even if the trade was placed in the market as long as they are higher in distance than a specific level (depending on the trading symbol).

3.9. The Client may change the expiry date of Pending Orders or delete or modify a Pending Order before it is executed.

3.10. The Company shall receive and transmit for execution to the Liquidity Provider all Orders given by the Client strictly in accordance with their terms. The Company will have no responsibility for checking the accuracy of any Order.

3.11. CFD Orders are executed as:

- CFD on currency pairs:
- Take Profit (T/P) orders are executed at stated prices;
- Stop Loss (S/L) orders set for lock positions are executed at first market prices;
- Limit orders are executed at stated prices;
- Buy Stop and Sell Stop orders for position opening are executed at first market prices. CFD on other underlying assets:
- Take Profit (T/P) orders are executed at stated prices; Limit orders are executed at stated prices;
- Stop Loss (S/L) orders are executed at first market prices;
- Buy Stop and Sell Stop orders for the opening position are executed at first market prices.

3.12. During the course of this Agreement in relation to all individual CFD trading the Company will receive the Client Orders and transmit them for execution to a third party (called the Liquidity Provider) who may in turn transmit the order to another party for execution. The Company will not be the counterparty in a CFD. A list of the Company's execution venues is available on the Website.

3.13. The Company is under no obligation, unless otherwise agreed in the Agreement, to monitor or advise the Client on the status of any Transaction or to close out any Client's Open Positions. When the Company decides to do so, this will be done on a discretionary basis and will not be considered an undertaking of an obligation to continue.

3.14. It is the Client's responsibility to be always aware of his positions at all times.

3.15. The Quotes appearing on the Client's terminal are based on the quotes from liquidity providers and are indicative quotes and hence the actual execution price may vary depending on the market conditions. For example, if there is high volatility in the Underlying Market the execution of the Order may change due to execution time and also the Client may ask for price but he will get the first price

that will be in the market and this may result in positive or negative Slippage for the Client.

- 3.16. If the Company is unable to proceed with an Order, with regard to price or size or other reason, depending on the Order type, the Order may be rejected or partially filled. The Company offers STP execution of Orders and hence re-quotes from the Company are not possible.

4. Costs, Financing Charges, Swaps

4.1. The Company's BID and ASK prices for a given CFD are calculated by reference to the price of the relevant Underlying Asset, which the Company obtains from third party external reference sources (i.e., from Liquidity Providers). The difference between the BID and ASK prices quoted of a given CFD is the Spread. The Company may choose to increase the Spread between the BID and ASK prices it quotes Clients compared to the Prices it obtains from third party external reference sources. These appear on the Website.

4.2. When the relevant Underlying Market is closed, the Quotes provided by the Company will reflect what the Company thinks to be the current Bid and Ask price of the relevant Underlying Asset at that time. The Client acknowledges that such Quotes will be set by the Company at its absolute discretion.

4.3. For opening a position in some types of CFDs the Client may be required to pay commission or financing fees, the amount of which shall be disclosed on the Company's Website. Commissions may be charged either in the form of a percentage of the overall value of the trade or as fixed amounts. In the case of financing fees, the value of opened positions in some types of CFDs is increased or reduced by a daily financing fee "swap rate" throughout the life of the contract.

4.4. Swaps are shown on the Company's trading platform.

5. Lots

5.1. The 1 (one) standard lot size is the measurement unit specified for each CFD. The Company may offer standard lots, micro-lots and mini-lots, in its discretion, as defined from time to time in the Contract Specifications or the Company's Website.

6. Trailing Stop, Expert Advisor and Stop Loss Orders

6.1. The Client agrees that trading operations using additional functions of the Client Trading Terminal such as Trailing Stop and/or Expert Advisor are executed completely under the Client's responsibility, as they depend directly on his trading terminal and the Company bears no responsibility whatsoever.

6.2. The Client agrees that placing a Stop Loss Order will not necessarily limit losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price and the Company bears no responsibility whatsoever.

7. Margin Requirements

7.1. The Client shall provide and maintain the Initial Margin and/or Hedged Margin in such limits as the Company, at its sole discretion, may determine at any time under the Contract Specifications for each type of CFD.

7.2. Unless a Force Majeure Event has occurred, the Company has the right to change the Margin requirements, giving to the Client three (3) Business Days Written Notice prior to these amendments and the Company has the right to apply new Margin requirements to the new positions.

7.3. The Company has the right to change Margin requirements without prior notice to the Client in the case of Force Majeure Event and especially when there are abnormal market conditions. In this situation the Company has the right to apply new Margin requirements to the new positions and to the positions which are already open.

7.4. Without prejudice to paragraph 13.1. of the Client Agreement, the Company has the right to close at market prices and or limit the size of Client Open Positions and to refuse new Client Orders to establish new positions in any of the following cases:

- The Company considers that there are abnormal trading conditions.
- The value of Client collateral falls below the minimum margin requirement.
- At any time equity (current balance including open positions) is equal to or less than a specified percentage of the margin (collateral) needed to keep the open position.

The Company makes a Margin Call (i.e., the Platform automatically notifies the Client) and the Client fails to meet it.

7.5. When the Platform automatically warns the Client that it reached a specific percentage of the Margin in the Client Account, then the Client should take any or any of the three options to deal with the situation:

- Limit his exposure (close trades); or
- Hedge his positions (open counter positions to the ones he has right now) while reevaluating the situation; or
- Deposit more money in his Client Account.
